

Exact Globe: Management View

“As a manager, I want to be able to know right away what’s going on so I can take action. The Management View helps me do just that. All of the decision points and overviews that I need are in a single place.”

An important part of your job as a manager is approving incoming and outgoing payments, invoices, quotations and labor hours. In addition, you are responsible for budgets, deadlines and all the details during period closure.

All of Your Information is Logically Organized on One Screen

Exact Globe groups these functions together in a management cockpit, logically organized for the decision maker. You do not have to click between components, processes, requests and analysis tools—all of the processes, reports and overviews are located on a single screen.

You work more efficiently and have more time to spend on managing your team.

Exact Globe is a back office system that integrates all of your company’s information concerning people, resources, products and processes in a single, central database.

This integration of data facilitates optimal control, accelerated processes and real-time insight into the organization—a tremendous benefit to managers. The most important management functions are grouped in the Management View.

Authorize centrally and easily, without the need to switch back and forth between different back office components, such as Invoice, Order, Purchase, Projects, and Financial

- Authorize outgoing transactions: Quotations, Sales orders, Service orders and Invoices
- Authorize incoming transactions: Internal use, Purchase orders, Labor hours, Payroll and Payments

Exact Globe Management View business benefits:

- Management cockpit with every back office function that the decision maker needs
- Authorize payments, quotations and orders, quickly and efficiently
- Check budgets for Assets, Contracts and Payroll
- All data for period closure is collected centrally

Monitor the Budgets that Fall Under Your Responsibility

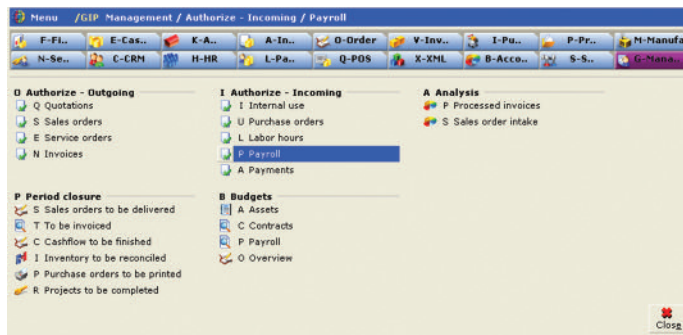

- Have central access to current budget information from the components Assets, Contracts and Payroll
- Generate overviews of reserved and allocated budgets and actual costs

During fiscal period closure you have all relevant, current business at hand. Quickly generate real-time overviews of:

- Sales orders accepted
- Debtors to be invoiced
- Cash flow managed
- Inventory reconciled
- Purchase orders to be printed
- Projects completed

The Exact Globe Management Tab selects and arranges processes for the decision maker. Managers spend less time on monitoring and investigating accounts. You work quickly and efficiently.

Exact Globe automates your entire business process, including the logistic and financial accounts. Management information is in real-time and centrally available. It increases the quality of your planning and reporting, while reducing costs and the number of steps required to run your business.

The Management tab contains all the data and processes which require your attention.
